

TypeScript/JavaScript Developer

As a part of ZoomCharts growth strategy we are actively expanding our team and global operations. We are looking for a TypeScript/JavaScript Developer to join the team in our Riga office or work remotely.

HERE'S WHAT THE ROLE IS ABOUT:

- Participating in a team building various solutions based on TypeScript and AngularJS as a software developer.
- Make design and technical decisions for AngularJS projects.
- Understanding your team's domain and the impact of your work against the business goals.
- Approach all engineering work through a security lens.
- Perform product analysis and development tasks of increasingly complex nature which may require extensive research and analysis.
- Approach tasks with analytical and creative mindset.
- Maintain code integrity and organization that delivers real business value.

Here's what we need from you:

- Readiness to work in a fast-paced and results-oriented startup environment, 40h/week.
- Strong experience in TypeScript and JavaScript.
- At least 2+ years hands on experience with AngularJS.
- Optimize applications for maximum speed and scalability.
- Knowledge of web standards and web accessibility requirements.
- Experience with HTML5, CSS3, SAAS.
- Experience with Firebase will be considered as a bonus.
- Experience with automated testing environment setup and maintenance.
- Ability to work in AGILE manner.

Here's what we commit to you:

- A-class work environment in Riga, G. Astras 8b, 8th floor
- Flexible working hours (start your day as late as 11 a.m.)
- Opportunity to work in the office or remotely.
- Rich health insurance, including massages and dental coverage after the trial period.
- Exciting team-building events.
- Mentoring and coaching to help you grow professionally.
- Friendly and highly motivated team to grow together with.
- Salary, depending on experience, 2000 - 3000 EUR Gross.

About the Company:

[ZoomCharts](#) is a rapidly growing IT company developing and selling data visualization solutions for different business intelligence (BI) systems. Here are just a few names to be mentioned as our valued customers and technology partners across many different industries and segments:
