

## Quantum computing and programming

Content: Any undergrad student registered to this spec-seminar is expected to **complete the lecture phase** of the fully online course: <https://qworld.net/qcourse511-2/>

Time/place: Online | Mondays & Wednesdays | 18:00-20:00

Schedule: The first lecture will be on Sep 5, 2022. The lectures and exams will be completed by the end of November.

Instructor: Abuzer Yakaryilmaz

Grading: Your score will be boosted by 20%. For example, if you complete the lecture phase with score 63 out of 100. Then, your grade for the spec seminar will be 8 out of 10 ( $6.3 + 20\% = 7.56$ ).

Registration: (1) You should fill out the form at <https://forms.gle/jX15ib57aaeZ7Rhm6> and (2) send an email to [abuzer@lu.lv](mailto:abuzer@lu.lv) with your student number and class (1/2/3/4).

*It is possible to enroll this course without officially registering to the spec seminar (, but then, you will not be able to get credits).*

For your questions, please write an email to [abuzer@lu.lv](mailto:abuzer@lu.lv)
