

MODERN POLYGLOTS – INTERNSHIP

IT ENGINEER

Internship Details

Title: IT Engineer

Skills and Areas

Establish networking environment by designing system configuration. Direct system installation. Define, document, and enforce system standards. Maximize network performance by monitoring performance. Troubleshoot network problems and outages. Schedule upgrades. Collaborate with network architects on network optimization. Secure network system by establishing and enforcing policies. Define and monitor access. Establish network connection between computers in offices in different cities. Website Maintenance. Detect, analyze, and defend against network penetration: Execute Intrusion Detection/Prevention system. Assist in identifying, recommending and implementing new processes or amendments to current ones to improve team functionality and service provision to customers.

Payment

This is an Internship. The payment is assumed by educational institution, scholarship fund or an intern themselves. We may decide to pay the intern some bonuses relating to their performance and achievements. Accommodation will not be provided, but the agency can assist in arranging it. The intern will have to have reasonable finances for a stay in Ireland during the internship period.

Agreement

The Intern should provide a sample agreement from the intern's educational institution or authority paying for the scholarship. If intern is applying directly, we will send our own agreement to sign.

Contract Type: Duration: 3, 6 (preferred) or 9 months

Internship is UNPAID

Closing Date: 30 October 2013

Commencement Date: October- November 2013

Type: Full time

Days per Week: 5

Hours per day: 6,5-7

Starting date: Immediately

HOW TO APPLY:

Applicants should send a sample contract from their educational institution or a granting authority that will pay for the internship. Alternatively, applicants can choose to apply directly in person. Our own contract and internship agreement will be provided.
